PEN AND SCISSORS.

The Italians ray "the earth covers the mistakes of the physicians."

The steam fire-engines of New York City are now quite in favor.

The Italians say very often "A lean agreement is better than a fat lawsuit." It is now stated that the cost to Virginia of the Harper's Ferry affair, will not exceed \$100,000.

Mr. H. Steers, of Fairfax County, Va., lately found thirty rats in his corn bin with their throats cut. The assessin was a weasel. 35 There have been heavy falls of snow

in several parts of Algeria, a thing which has not happened for more than fifteen years. An exchange tells of a laborer whose

employer raised his wages so high that he has never been able to reach them. The total exports of Mobile, Ala., mostly cotton, for three months past, have amounted to over \$12,000,000.

Rumor has it that a fair niece of Mayor Wood, of New York, is soon to be led to the hymeneal altar by a Cuban millionaire.

**We can sometimes love what we do not understand, but it is impossible completely to understand what we do not love. Mr. Hyatt has deposited the hundred dollars in the Savings' Bank for Mrs.

John Brown and family. Governor Newell, of New Jersey, condemued the John Brown raid in his message. Why should be not?

Our sweet illusions are half of them conscious illusions—like effects of color that we know to be made up of tinsel, broken glass and rags.

25 We learn words by rote, but not their meaning; that must be paid for with our life-blood, and printed in the subtle fabrics of our

AT A correspondent says that woman is twice as good as man, and proves it thus by the very orthography—W-o-m-a-n-double you O man.

Barnum is making money with the Draytons and their parlor openus in New Yor.

The parties have just divided \$28,400 profits en the New York season. A new order, called "Daughters of the Forest," has just been organized in Baltimore.

The objects of the new organization are similar to those of the "Daughters of Temperance." 23 Some day it will be found that to bring

up a man with a genial nature, a good temper and a happy frame of mind, is a greater effort than to perfect him in many accomplishments.

"Shun doctors and doctor's drugs, if you wish to be well," was the seventh, last, and best rule of health laid down by the famous physician Hoffman. The ice in the harbor and rivers near Baltimore has had the effect to curtail the

daily supply of oysters, and the prices have risen there considerably in consequence. The total value of coal shisments from the mines of Pennsylvania during the past year, at \$3 50 per tun, amounted to about \$35,000,000.

The New York importations from Porto

Rico, a small Spanish Island of about 4,000 square miles, are about \$5,000,000 per annum, while the exports thither amount to only about \$2,000,000.

Forney's "Occasional" thinks there will be two Locofocco nominees, one by the bolters of the Charleston Convention, and one by the Convention, and that Douglas will be one of them.

A CATHOLIC ORGAN INDIGNANT AT THE SOUTH-The Roman Catholic organ of New York, The Tablet, thus concludes an excited article upon the outrageous wrong done in Georgia to the Irishman, James Crangle:

If the safety of the Union is only to be accomplished by the proscription of the freedom of speech, the freedom of the press, the freedom of circulation for every free citizen, by the destruction of the habeas corpus, by the substitution of mob and Lynch law for that of the Courts of Justice, by the contamning of constitutional rights, and the disregard of constitutional rights. siitutional guarantees, then we say again the Union for not worth saving, and we, for one, would not lend a hand to save it.

FANTAST TO FASHION IN APRICA .- Dr. Livingstone in a recent letter from Africa says: The women wear the lip ornament, round one of which I put my pen. The slit is made in the upper lip, at first, by a ring in childhood. The ends are gradually pressed closer together, and cause absorption till a hole is made. This fashion a ring, either hollow or cup-shaped, is inserted, and the edge of the lip protrudes beyond the p spendicular of the nose, at least

POSTAGE ON M.VAIC .- The proper mode o rating music with postage is by the piece, without regard to the number of sheets in a piece, one cent for each piece, not exceeding three ounces in weight. When a piece exceeds three ounces in weight, one cent should be charged for the first three cunces, and one cent additional for each additional ounce or fraction

ENGLISH OPERA IN CALIFORNIA. - The New Orleans Boglish Opera Troupe, of which Resalle Durand is the prima denna, recently concluded a season of one hundred and twenty nights in San Francisco and the interior cities.

OUR MAN DROWNED WHILE VALSLY SEEKING T OSAVE ANCHER. - Brice Adams, in attempting to cross one of the lakes above Columbus, K y., a few days since, on the los, fell through, as id Mr. Picket, running to assist him, also fe Il in and both were drowned.

PRICE ONE CENT. AN ABUSED WIFE ATTEMPTING TO SHOOT HER HUSBAND KILLS HER SON.—The wife of Samuel Joy, residing in Paris, Ky, having been often unmercifully beaten by her husband, and fearing another attack, seized a band, and fearing another attack, seized a double-barreled gun on the evening of the 18th, as he was approaching his home and fired one charge, which missed him and lodged in the brain of her boy, ten years old, sitting on the floor, killing him instantly. She then attempted to discharge the other barrel, but the gun missing fire, Joy seized the weapon and beat his wife on the head until she was insensible. Mrs. Joy was arrested and is now in jail.

EIGHT PERSONS DROWNED WHILE CROSSING Eight Persons Drowned While Crossing the Hudson.—Eight persons were drowned near Rhinebeck, N. Y., a few days sgo. A party of twenty or twenty-five persons, from the opposite side of the river, were crossing on the ice in a large covered sleigh, drawn by four horses, when the ice gave way and the sleigh went down, carrying with it eight of the passengers, who were drowned. All but eight succeeded in getting out of the sleigh before it went down.

THE HINDERANCE TO THE SALE OF A RUSSIAN RAILWAY.—It is said that the interest of Mr. Winans, of Baltimore, in the railroad from St. Petersburg to Mescow is the principal obstacle to its purchase by the Rothschilds from the Russian Government. The road cost \$100,000,000, beside the permanent lien which Mr. Winans has on it, and the Government has offered to sell it for \$60,000,000.

Singular Result of a Divorce.—Several years ago, the Superior Court of Massachusetts granted a Mrs. Eaton, of Boston, a divorce from her husband, on the ground of alleged cruelty. The same Court has now given leave to Eaton to wed again his former wife, having married the identical man who was the cause of the whole difficulty between

FRED. DOUGLASS IN BRITAIN .- Fred. Douglass appeared at an anti-clavery meeting held in Leeds, England, recently. The meeting was presided over by a member of Parliament, and was addressed by Fred and Miss Remond, also colored, of Boston. Old Brown was pronounced "a departed saint," and slaveholders threatened with evil in its worst forms.

DR. LIVINGSTONE AIDED IN HIS EXPLORATIONS. It is said that the British Government has decided on providing Dr. Livingstone with a new steamer, for the purpose of enabling him to carry out his exploration of the Zambesta. It is also said that Mr. Gladstone has appro-priated a sum of £2,500 to the further exploration of the great Nianza chain of lakes.

AN ARCTIC INVALID .- The Boston Herald states that every morning at 5 o'clock and evening at the same hour, an invalid visits Lewis's wharf armed with an axe, with which be breaks the ice and then undresses and plunges in. Strange as it may appear, the bather thinks that he is rapidly regaining his bealth.

ADAPTABILITY OF THE PRENCH SOLDIERS -The French soldiers remaining in Italy show the same facility for adapting themselves to circumstances as they did in the Crimea. At Casal-Maggiore the 1st brigade of the 5:h division lately organized a dramatic performance for the benefit of the poor, which was at-tended with immense success.

THE FORGERIES IN ALBANY .- The rumored forgeries in Albany, N. Y., to which we have alluded, turn out to be indersements to the extent of several thousands of dollars, of the name of an old farmer. John Mcknows. prietor of the Commercial Hotel, by John H. Zoh, lessee.

THE TEA PLANT IN LOUISIANA .- The Tea Plant is cultivated in Louisians without any difficulty. It has shown its power to with-stand the hottest days of Louisiana, and also the late freezing cold weather. Labor is too dear in Louisiana to permit the tea plant to be cultivated for commercial purposes.

CHOKED TO DEATH BY A STICK OF WOOD, Rye Coulter, who resided in Botetourt County, Va., went out to get a stick of wood recently with which he started to return, when, as he was ascending a hill, he stumbled, and the wood on his shoulder becoming tangled in his cravat, choked him to death.

RESUMPTION OF A SUSPENDED BANK -The Lawrence County (Penn.) Bank has resumed business, under the Presidency of John Ferguson, the well-known private banker of New Castle. New stock subscriptions have been made, sufficient in amount to put the bank on safe foundation.

AN EDITORIAL HIT .- The editor of the Davenport (Iowa) Gazette says of somebody: Our neighbor says we are quaking in our boots. Well, that is certainly a great deal better than to be quaking at the and of other men's boots, as this unfortunate neighbor is generally doing
